with  **TXXchange**
Expanding the Patient Relationship

GET BETTER FASTER!

MooreActive with TXXchange is web-based software you will use to stay connected between office visits. The secure messaging system will be reviewed by your physical therapist every day. You will update us on your progress, ask questions, and, most importantly, provide information which allows us to make the most out of your actual appointments. All in an effort to get you better, faster.

NO MORE STICK FIGURES!

This unique software allows us to deliver your personalized exercises in video format. You may recognize some familiar faces, we used our own therapists and personal trainers, to ensure you have the resources to perform your exercises correctly and safely. No more stick figures. We will create your exercise program using our videos and deliver them to your account, organized and easy to fit into your day.

WHAT'S IN IT FOR YOU?

- **Easily message** with your therapist online and at your convenience
- **Securely access** your treatment plan whenever there is a computer with internet access
- Do your **exercises safely** and correctly at home with high-quality videos
- **On demand access** to your therapist's instructions and guidance
- **Achieve your goals** faster by receiving reminders and support in-between office visits
- Better understand your condition by reading **trusted health and wellness information** handpicked by your therapist.

Over the past 20 years Moore's proactive approach to physical therapy has made us a recognized leader in our field. We know how to get you better faster.
